

ENTERPRISE NETWORKS  
FULL CIRCLE

## IT 360° Overview

Connect with Canada's **key IT decision-makers** at THE enterprise network event of the year.

The who's who of IT executives and network professionals will be on hand to explore 'Enterprise Networks Full Circle' at this powerful exhibition, conference and industry forum.

### Our Community

IT World Canada maintains an ongoing, year round relationship with Canada's IT professionals where we consistently deliver the information and education that matters most to them. Event producers often rent a 'list', whereas **IT World Canada has developed a community**, which we serve with print, online and events. This respect for our community and their needs, ongoing communication, and the resulting trust relationship, is at the core of all we do.

### IT360 Features Smalltalk

LinuxWorld Canada welcomes back the Smalltalk Industry Council and the Smalltalk Solutions Conference 2007.

LinuxWorld Canada and the Smalltalk Solutions conference are a natural fit providing an exciting environment showcasing the latest developments in Smalltalk, Seaside, Squeak by leading industry companies. Renowned professionals representing the best from the Smalltalk application development community worldwide will present a series of seminars and tutorials. [www.stic.org](http://www.stic.org).

IT 360° "Enterprise Networks Full Circle" - Canada's IT conference and expo for IT professionals responsible for enterprise networks, is dedicated to all aspects of the Network, including:

- **Open Solutions & Linux**
- **Security**
- **Storage**
- **Virtualization**
- **Voice & Data**
- **Wireless & Mobility**
- **ITIL & Compliance**
- **Enterprise Applications**
- **IP Services**
- **Enterprise Networks**
- **Network Attached Devices**
- **Emerging Technologies**

IT 360° is a superb profile-building opportunity to develop important relationships, build awareness and generate new sales prospects.
