An: Nowak, Helge

Betreff: Internship IT SMALLTALK CINCOM (Ecole des Mines)

Dear Mr. Helge Nowak,

I'm a French student currently perform the year before of a master of science in **Information technology** with a minor in Business management. This year I have to perform a **seventeen-week internship** between **April and September (2008)**. Seen your leading position and the excellent reputation of CINCOM I am interested in performing this internship by your company.

Many reasons make me want to become the next collaborator of CINCOM. The most important is your commitment to respecting each other, embracing ideas and abilities. Next I'm interested in working with CINCOM because of your numerous activities. I have read the description of each one and I believe that I can learn a lot from a working experience with CINCOM . Even if there are other reasons making me want to work with you I would say that the last main reasons are international and team work dimensions related to your activities. I deeply believe that performing this internship by CINCOM would be a great opportunity for both my career and personal development.

Because information is most important now for a firm I believe that my knowledge in Information Technology would be useful to CINCOM. My previous experiences taught me how to manage such projects and I had pretty good results. In addition, I'm very adaptable and my skills in Maths are also a strength I can count on to perform a CINCOM project. I have had a relevant experience as junior consultant where I worked in international context. Plus my studies gave me a strong background in Business management. Finally I show human qualities requested for such a position. From home teacher to project manager my involvement in many projects has developed my leadership, team work, entrepreneurial and human skills.

Please find attached a copy of my CV. I will contact you within a week to discuss about my application. However you can still contact me by e-mailing me at schadrac@gmail.com.

Thank you for your consideration,

Looking forward to hearing from you,

Sincerely yours,

Bi Lia Koffi

Ecole des Mines (France)

PS: Recommended by Noury Bouraqadi (my teacher excellent smalltalker)
