ObjectStudio New GUI Project

Andreas Hiltner
Cincom® ObjectStudio® Engineer

Overview

Creating a new GUI library of Windows native widgets for ObjectStudio using DLLCC only.

Benefits

No more Primitives, 100% Smalltalk code:

- The code can be changed at any time.
- Easier for Support to send fixes to Clients
- Clients can now overwrite or change the code to their liking
  Easy enhancements of features not yet implemented

Fall-Out Projects

- **ImageList**
- **Menus**
- **CommonControls**
  - ProgressBar
  - (New!) MarqueeProgressBar

Cincom.
